

Stage 1

DON'T BITE DA BABY!

SCENARIO: A small horde has invaded your camp...and has snatched up a baby! Rescue the baby first, then take out the rest of the horde.

START: Start in either Box A or B, hands at sides, facing uprange, loaded pistol and spare mags on belt.

PROCEDURE: While shooter is facing uprange, the previous shooter will place the baby no-shoot on either Z1 or Z2 if the shooter is starting in Box A, or on Z3 or Z4 if the shooter is starting in Box B. At the buzzer, turn and engage the two targets in front of that Start Box with at least 3 shots each, including at least one to the head - *BEGINNING WITH THE ZOMBIE HOLDING THE BABY!* Then proceed to the other box and take out those two, in any order, with three shots each, again including at least one to each head. The Zombie with the baby **MUST** be engaged first. The best three hits on each target will be scored. Any target without a headshot will be considered a Failure to Neutralize and incur a 5 second penalty. A Failure to Neutralize the Zombie with the baby will incur a 6 second penalty...and unending shaming from your fellow shooters. **SAVE THE BABY!!!!**

A

B

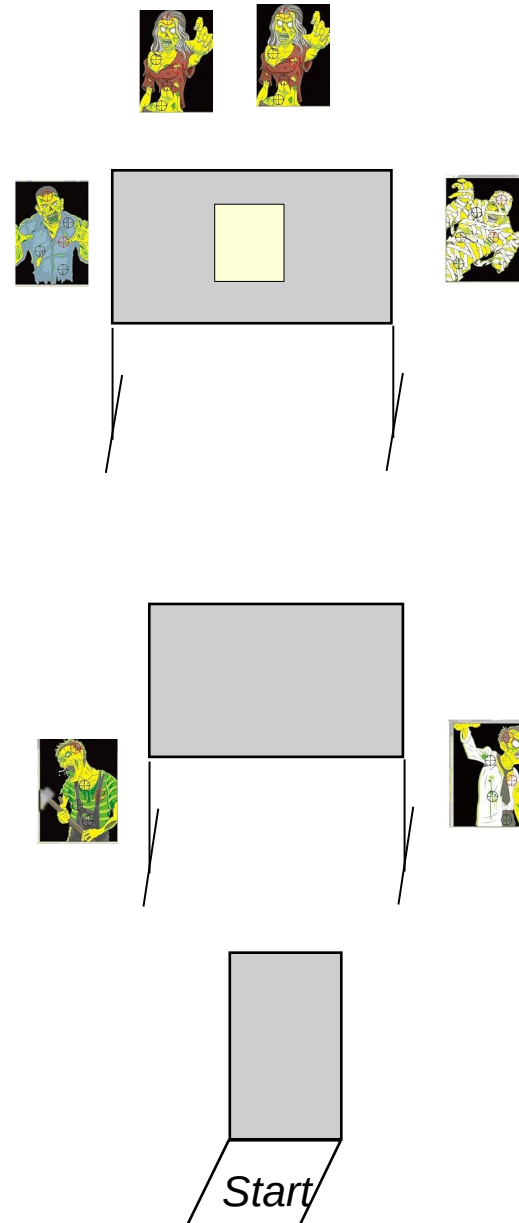

Stage 2 Barricaded Zombies

Scenario: The zombies are trying to hide behind barricades to ambush you. Eliminate the zombies before they hide.

Course of Fire: From the start position engage the two zombies near the barricade with two head shots. Advance and using cover engage the zombies at the next barricade with two head shots. Advance and engage the remaining zombies through the window with two head shots.

Zombie head scoring: Each zombie requires two head shots. At least one head shot is needed to avoid the failure to neutralize penalty. Best two hits will count for score..

12 Shots minimum.

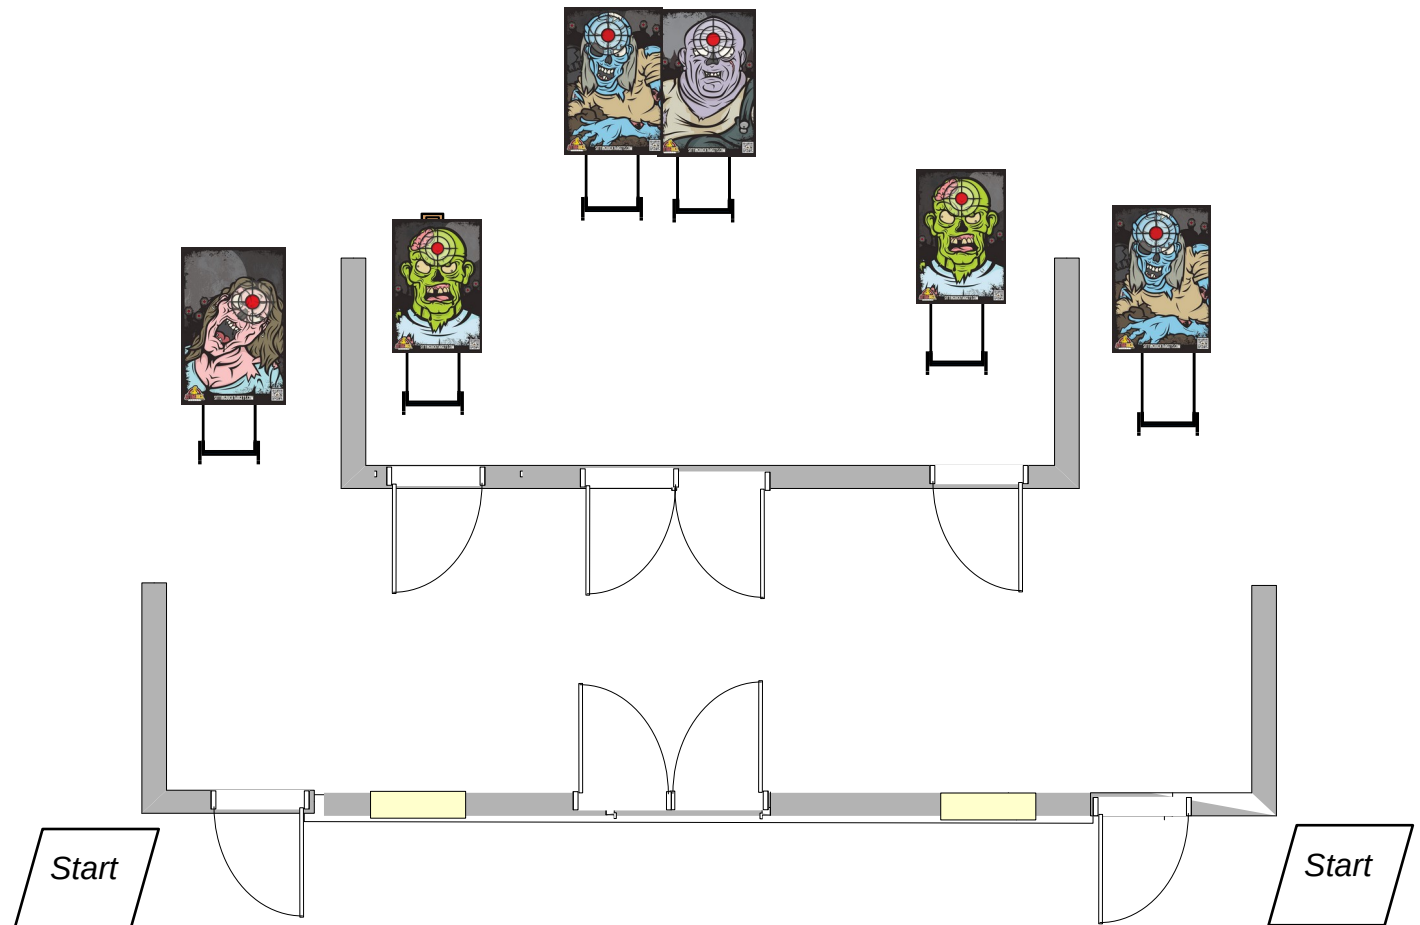

Stage 3 Zombies in the house

Scenario: A group of Zombies have invaded your house. Eliminate them so that you have a place to live.

Course of Fire: Pick a start location. As you cross each window or door engage the zombies in that room with two head shots. Use cover so that the zombies don't approach to eat your brain.

Zombie head scoring: Each zombie requires two head shots. At least one head shot is needed to avoid the failure to neutralize penalty. Best two hits will count for score..

12 Shots minimum.

Stage 4 Zombie Hoard and their baby

Scenario: A hoard of zombies, including a zombie baby, are intent on eating your brain. Eliminate them to protect yourself. Two zombies approach before the entire hoard comes out of hiding

Course of Fire: Start facing right gun loaded and holstered. Turn and engage Z1 with two body and one head shot. Engage Z2 with two body and one head shot. *NOTE Head shot is required to avoid FTN, best three hits are scored. Engage the steel on the dropper target to expose the zombie hoard. There are 5 zombies on the target each one needs one head to avoid the FTN, including the baby zombie.

12 rounds minimum.
